Dr. Eggman captured Aurora from sleeping beauty, and I have to defeat him and save her and with my friends told me "Good Luck Jacob". and I was off to save Aurora, I come to his place with the villains and he set a trap to stop me. And I was too quick for his traps, because I was strong. I get to transform into my super power to defeat Eggman and his flying things. I got strong enough to defeat him. And the other villains showed up to battle me. And Aurora saw me battle the villains so I can win the fight, I have battled the villains once again and again. And I didn't get tired of fighting. Once I defeated the villains, I will battle Eggman next and he is my last enemy, and I battled him. I have defeated Eggman and I rescued Aurora. I am strong enough to carry Aurora and get her out of Eggman's lair. I hold her tight and she put her hands and arms on my shoulders. She gives me a kiss and my friends cheered.
